

School Council Meeting

9th January 2015

Helen joined the meeting to talk about playground markings and music resources for the playground.

Every classroom had talked about the different ideas for the playground and voted for what they would like. Helen had prepared a graph with all of the ideas on so that we could see which was the most popular.

The pupils' favourite idea was the snakes and ladders playground markings.

The second favourite was the road with the zebra crossing and the parking for the bikes.

Helen will price up and source provider.

Outdoor musical instruments

The school now has a budget to purchase a selection of outdoor musical instruments. Helen will order.

It was agreed that the original school council budget of £200 was to be spent on an outdoor Boom Box. Harry will source and pass details on to Helen.

Gardening Project

We discussed a possible gardening project which will be supported by Magdalen Farm. Ideas were to have a poly tunnel, raised beds, willow tunnel, and a possible greenhouse made out of plastic bottles.

Next meeting will be with Magdalen. Date to be confirmed.
